Exhibit B

ASSIGNMENT OF PATENT RIGHTS

categories (a), (b), (c) and (d), including, without limitation, under the Paris Convention for the Protection of Industrial Property. patents or patent applications to which any of the foregoing claim priority, and (c) current or future rights to (i) provisional patent Delaware limited liability company, having an office at 2711 Centerville Road, Suite 400, Wilmington, New Castle Country, DE any provisional patent application, patent application or patent listed below and all other rights arising out of such inventions and protection, design patent protection, and other governmental grants; (d) the rights to all inventions and discoveries described in discoveries; (e) rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial (whether currently pending, filed, or otherwise) and other enforcement rights, including, without limitation, all rights under the provisional patent applications, patent applications and patents listed below and/or under or on account of any of the foregoing applications, patent applications, and patents of any kind relating to any inventions and discoveries described in apy provisional For good and valuable consideration, the receipt of which is hereby acknowledged, IceFyre Semiconductor, Inc., a he International Patent Cooperation Treaty, or any other convention, treaty, agreement or understanding; (f) causes of action 19808 ("Assignee"), or its designees, all right, title and interest that exist today and may exist in the future in and to all of the counterparts to any of the foregoing, including, without limitation, certificates of invention, utility models, industrial design ollowing (the "Patent Rights"): (a) the provisional patent applications, patent applications and patents listed below, (b) all continuations in part, continuing prosecution applications, and divisions of such patents and applications; and (iii) foreign design protections, design patent protections or other governmental grants of any type related to the any of the foregoing Delaware Corporation, ("Assignor"), does hereby sell, assign, transfer and convey unto Zarhaña Digital Fund LLC, a patent applications, patent applications and patents listed below; (ii) reissues, reexaminations, extensions, continuations, categories (b), (c) and/or (d) to

- damages,
- injunctive relief and
- other remedies of any kind **EE**

for past, current and future infringement; and

(g) all rights to collect royalties and other payments under or on account of any of the foregoing

Assignor represents, warrants and covenants (except that Purchaser makes no representation, warranty or covenant with respect to the entries in the above chart that are Australian patent applications with Item designations ending in "AU**") that:

- Assignor has the full power and authority, and has obtained all third party consents, approvals and/or other authorizations required, to enter into this Agreement, make the assignments, and to carry out its obligations under this Assignment of Patent Rights;
- or other encumbrances, and restrictions. There are no actions, suits, investigations, claims or proceedings threateued, pending or regulations in each respective jurisdiction. The Patent Rights are free and clear of all liens, claims, mortgages, security interests assignments for the Patent Rights as necessary to fully perfect its rights and title therein in accordance with governing law and Assignor owns all right, title, and interest to the Patent Rights, including, without limitation, all right, title, and in progress relating in any way to the Patent Rights. There are no existing contracts, agreements, options, commitments, interest to sue for infingement of the Patent Rights. Assignor has obtained and properly recorded proviously executed proposals, bids, offers, or rights with, to, or in any person to acquire any of the Patent Rights.

Page 14

net

Page 1.

patents, certificates of invention, utility models or other governmental grants that may be granted upon any of the Patents Rights Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all in the name of Assignee, as the assignee to the entire interest therein.

assignments, oaths, declarations and other documents on a country-by-country basis, to assist Assignee in obtaining, perfecting, proceedings, opposition proceedings, cancellation proceedings, public use proceedings, intringement or other court actions and things necessary, proper, or advisable, including without limitation the execution, acknowledgment and recordation of specific Assignor shall, at the reasonable request of Assignee and without demanding any further consideration therefor, do all the like with respect to the Patent Rights. With prior written approval by Assignee, Assignee will pay Assignor's reasonable inventors, prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, powers of attorney, specifications, declarations or other papers and other assistance reasonably necessary for filing patent applications, sustaining, and/or enforcing the Patent Rights. Such assistance shall include providing, and obtaining from the respective complying with any duty of disclosure, and conducting prosecution, reexamination, reissue, interference or other priority costs and expenses.

STATE OF [[DCCOchuser)

DEST AVAILABLE COPY

The terms and conditions of this Assignment of Patent Rights shall inure to the benefit of Assignee, its successors,

assigns and other legal representatives, and shall be binding upon Assignor, its successor, assigns and other legal representatives. IN WITNESS WRIEREOF this Assignment of Patent Rights is executed at Schiavo (Signature MUST be notarized) ASSIGNOR Name: Title: By: go

same in his/her authorized capacity, and that by his/her signature on the instrument the person, or the entity upon behalf of which evidence) to be the person whose name is subscribed to the within instrument and acknowledged to me that he/she executed the Notary Public in and for said State, personally known to me (or proved to me on the basis of satisfactory WIINESS my hand and official seal. the person acted, executed the instrument personally appeared //
